EDUCATION

SOUTHERN NEW HAMPSHIRE UNIVERSITY

Computer Information Systems – Expected in 05/2026

EXPERIENCE

OPERATIONS TECHNICIAN, FLIP ELECTRONICS

11/21/22 – 7/10/23

Primary role to manage and maintain accurate records of all goods and materials within the company's inventory.

INVENTORY ANALYST, CENTENNIAL FARMS DAIRY

7/10/23 - Current

The Maintenance Receiver is responsible for accomplishing and overseeing all the parts receiving, stocking, inventory, and cleanliness for the maintenance spare parts operation at the Centennial Farms Dairy.

- Supported the development, maintenance, ongoing improvement of the Safe, Quality and Food (SQF) 2000 Systems.
- Helped manage a product cost saving project. Identified 16% of losses over the course of three months during the processing of the product.
- Sampled Kroger products to discover variances in product weight, followed by adjusting machine operating specifications. Ultimately saving Kroger \$200,000 a year in overfills.
- Analyzed the reliability of critical equipment using trending data. In addition, creating action plans which saw a 1.5% increase of overall building PR versus previous year.
- Participated in Kroger's standard optimization program. Helped eliminate \$250,000 worth of OEM rebuild redundancy.
- Participated in a parts room overhaul resulting in a decreased discrepancy of \$94,000 in inventory variances year to date versus the previous year.
- Collaborated with vendors on capital projects less than \$50,000 and machinery upgrades to improve overall site reliability.

SKILLS & ABILITIES
